Attention all Nevada IFTA filers. Please be advised that Iowa has had a tax rate increase beginning March 1, 2015. Their changes have been posted on the IFTA Tax Rate Matrix, available at [www.iftach.org](http://www.iftach.org).

All IFTA carriers who traveled in Iowa during the 1<sup>st</sup> quarter of 2015 must declare their mileage and fuel used/purchased in the following way.

**If the IFTA carrier has operations for both periods within the quarter:**

Travel from 3/1/15 – 3/31/15 are entered on the IFTA tax return form 366 schedule 1 as the 1<sup>st</sup> line for Iowa at the tax rate listed for that time period (\$0.3250 for diesel)

Travel from 1/1/15 – 2/28/15 are entered on the IFTA tax return form 366 schedule 1 as the 2<sup>nd</sup> line for Iowa at the tax rate listed for that time period ( \$0.2250 for diesel)

**If the IFTA carrier has operations only for the period 3/1/15 – 3/31/15:**

Only one line for Iowa should be entered on the IFTA tax return form 366 schedule 1 at the tax rate listed for that time period (\$0.3250 for diesel)

**If the IFTA carrier has operations only before 3/1/15 (1/1/15 – 2/28/15):**

The first line will be entered with zero for distance/fuel on the IFTA tax return form 366 schedule 1 for Iowa.

The 2<sup>nd</sup> line will be entered on the IFTA tax return form 366 schedule 1 with actual distance/fuel at the tax rate listed for that time period for Iowa. (\$0.2250 for diesel)

For all other fuel tax rates please go to [www.iftach.org](http://www.iftach.org)
