The purpose of this workshop is to solicit comments from all interested persons on the following topics addressed in NAC 483.800-.802:

- **Deletion of modifications to 49 CFR 383.51 regarding “serious traffic violation”**
This regulation currently contains provisions that modify 49 CFR 383.51 regarding serious traffic violations. This modification was part of the original regulations passed in 1992. Removing this language will allow the Department to come into compliance with these federal regulations.
- **Add new language to ensure drivers with hazardous materials endorsements obtain appropriate background checks and authorization from the Transportation Security Administration (TSA)**
49 CFR 384.233 requires to ensure CDL drivers with a hazardous materials endorsement obtain appropriate background checks and TSA authorization to transport such materials. This authorization runs for a 5-year period and does not coincide with the renewal of a CDL. While Nevada currently won't issue a CDL

without proof that the driver has obtained this authorization, no legal mechanism is in place to ensure drivers renew their TSA authorization if it runs out before their CDL expires. The Department is proposing to suspend the commercial driving privilege for no less than 30 days of drivers who do not (a) renew their TSA authorization before the TSA expiration date, or (b) come into a Nevada DMV office to have the endorsement removed from their license, or (c) come into a Nevada DMV office to downgrade to a non-commercial license. Notification of the *potential* for this action will be sent to drivers 90 days before their TSA authorization expires to ensure sufficient time for renewal.

A copy of all materials relating to the proposed regulations may be obtained at the workshop or by contacting:
