PREFACE

The Nevada Department of Motor Vehicles has prepared this guide to assist the motor vehicle industry when conducting business with the Department. It was created as an informational and instructional reference, and attention to the detailed information and examples will ensure proper completion of forms required to register and/or title vehicles in the State of Nevada.

Familiarity with the occupational licensing information and compliance with the licensing requirements will ensure that the business records on file with the Department are accurate and that they reflect the correct status of a business license. A vehicle industry occupational license is considered a privileged license. The business principal is responsible for compliance with all requirements pertaining to the documents submitted to the Department.

If you have any suggestions that may help improved this guide, please provide them in writing to:

Section 1  GENERAL INFORMATION
Guidelines

- Always type or print in black or dark blue ink.
- Owner’s full legal name and address information must be recorded on registration and title documents exactly as it reads on the owner’s driver’s license.
- Ensure the Vehicle Identification Number (VIN), year, make, odometer readings and registered owner and legal owner information are consistent on all documents.
- Signatures must always be handwritten, unless waived by the Department because the submittal is done by electronic means. A printed release will not be accepted unless accompanied by a notarized or witnessed statement (from the person in question) stating the signature is a legal signature.
- Do not use correction fluid or correction tape.
- Do not alter any information on the documents.
- A release should be the same as it appears on title documents, i.e., Elizabeth should sign as Elizabeth.
- All documents must be originals, unless certified true copies of the original documents.

Importance of Accuracy

The Department of Motor Vehicles uses the VIN as the primary identifier for entry and retrieval of records. It is therefore critical that all documents are completed using the correct VIN.

TO AVOID ERRORS:

- Use the entire VIN at all times.
- Ensure the VIN is entered or recorded accurately. It is best to use block letters.
- If the VIN is handwritten, try to avoid the following most common errors:

<table>

<th>May be mistaken for</th>

<tr>

</tr>
</tbody>
</table>

“1” and “1” are often confused. The letter “1” is rarely used in a VIN.

The letter “O” is never used in a VIN, with the exception of state assigned VINS, such as those that are assigned by the states of Colorado (i.e., COLO123456) or Missouri (DR000000MO or DRMVB0000000000MO).
Vehicle Identification Number (VIN) Information

Since 1954, American automobile manufacturers have used a Vehicle Identification Number (VIN) to identify and describe a vehicle.

Since 1981, all manufacturers of vehicles sold in the United States are required to use a standardized seventeen (17) digit VIN structure. When the department is provided with a vehicle with an eighteen (18) digit VIN, the VIN will be verified before the vehicle information is entered.

Variations exist in the location of a VIN and in the systems used for a VIN; they may vary by year of manufacture and between manufacturers.

A VIN should always be verified by a physical inspection of the vehicle.

11th Character: Identifies the assembly plant for the vehicle.

12th to 17th Characters: Identifies the sequence of the vehicle for production as it rolled off the manufacturer’s assembly line.

If a manufacturer produces less than five hundred (500) vehicles per year, the VIN characters along with the third, fourth and fifth characters of the fourth section shall uniquely identify the manufacturer, make and type of motor vehicle. (Title 49 CFR, Section 565.6 Content Requirements)

**Notaries Public**

A licensed Nevada dealer’s signature is not required to be acknowledged by a Notary Public on documents the dealer must file with the Department, except in regard to deposit in lieu of a bond. Nevada Revised Statutes (NRS) 482.3275

If a document must be notarized, the provisions of NRS 240.010 through 240.150 must be followed.

A Notary Public may not perform any act authorized by NRS 240.065 if he or she:

1. Executed or is named in the instrument acknowledged or sworn to;
2. Will receive directly from a transaction relating to the instrument any commission, fee, advantage, right, title or interest, property or other consideration in excess of the authorized fees; or
3. Is related to the person whose signature is to be acknowledged or sworn to as a spouse, sibling, or lineal ancestor or descendant.

**Attempt to Contact**

If the Department of Motor Vehicles requires evidence of an “Attempt to Contact” the owner or lienholder of a vehicle, you must do the following:

- Write to the owner of record asking them to sign the enclosed documents (Bill of Sale, Application for Duplicate Title etc., depending on the requirements) in front of a Notary or to contact you.
- Caution: Do not mail original ownership documents that are in your possession. Mail
photocopies of the ownership documents, and request the owner contact you to arrange signing the original documents.

- If you need a signature on an original document, and it is a secure document (i.e., Secure Power of Attorney, Title) a signed photocopy is not acceptable.

- Send the letter by “Certified Mail – Return Receipt Requested.” Keep the payment receipt, issued to you by the Post Office, with your records. Retain copies of everything you mail.

- If the letter is returned with a forwarding address filed with the U.S. Postal Service, resend the letter to the forwarding address by “Certified Mail – Return Receipt Requested.”

- If the letter is returned to you as “Undeliverable,” do not open it; or

- If you receive a signed Post Office Receipt showing the letter was received and fifteen (15) days have passed since the date of receipt:
  - Bring all documents for the vehicle, along with the returned letter or the signed receipt, to the Department of Motor Vehicles.
  - At that time, the Department of Motor Vehicles should be able to assist you with the vehicle registration and titling of the vehicle.

- If the former owner(s) contact you and provide you with the necessary signatures, the receipt or returned letter is not needed.

- Prior to being issued a vehicle registration or title, you will need to have a Vehicle Identification Number Inspection VP-15 completed on the vehicle.

  **Motor Homes**

  Motor homes are vehicles described as permanently attached to a chassis and are designed for use as temporary living quarters. NRS define three (3) types of motor homes.

  **Note:** The legal maximum width of a recreational vehicle is one hundred two (102) inches excluding mirrors, lights and other devices required for safety; and an awning and any hardware used to attach the awning, but it cannot extend beyond any mirror.

  **Mini Motor Home** refer to NRS 482.066.

  **Motor Home** refer to NRS 482.071.

  In all cases, the chassis/frame number is used as the vehicle identification number (VIN). The make of the vehicle is the motor home name, not the chassis/frame manufacturer.

  Example: Winnebago makes the Itasca and Fleetwood makes the Tioga. The makes are therefore Itasca and Tioga; Winnebago and Fleetwood are not used.

  The vehicle year is established by the manufacturer on the vehicle’s original documentation.

  In all cases, the vehicle length must be included on the registration and title documents as part of the vehicle description.

  **Chassis-Mount Camper** refer to NRS 482.0151.
Recreational Park Trailer refer to NRS 482.1005.

Transmittals to the Department

It is advisable (not mandatory) for dealers to submit a transmittal with all title documents. Two copies of the transmittal should be submitted. The transmittal form must be completed in full, and must identify the name and address of the business. In cases where title documents are resubmitted, write “RESUBMITTED” in red across the top of the transmittal form.

Both copies of the transmittal will be date stamped, with the date of receipt by the department. One copy will be returned to the submitting business as long as they include a self-addressed stamped envelope along with the transmittal. One copy is placed in the Department files.

Please note the Department does not supply the transmittal form. However, the sample form details the information that must be provided when submitting title documents to the Department.

Short-Term Lessors

6-Percent (6%) Governmental Services Fee Charged on Rental of Passenger Vehicles

Upon the lease of a passenger car by a short-term lessor in this state, NRS 482.313 requires the short-term lessor to charge and collect from the short-term lessee a fee of 6 percent (6%) of the total amount for which the passenger car was leased, excluding any taxes or other fees imposed by a governmental entity.

- The amount of the fee must be included in the lease agreement and listed separately from all other charges.
• The fee must be identified as “Governmental Services Fee” and must be submitted quarterly to the Nevada Department of Taxation.

The records, receipts, invoices and other pertinent papers documenting the leases must be available at all times during normal business hours for examination and copying by the Nevada Department of Taxation or the Nevada Department of Motor Vehicles or its authorized agents.

The records, receipts, invoices and other pertinent papers must be preserved intact for at least four (4) years after the date the record, receipt, invoice or paper was made.

If you have any questions, please contact State of Nevada, Department of Taxation.

Section 2  OWNERSHIP DOCUMENTS AND FORMS
Manufacturer’s Certificate of Origin

Manufacturer’s Statement of Origin/Certificate of Origin (MSO/MCO) means a document similar to a certificate of title or certificate of ownership issued by a manufacturer that must be completed and executed by the seller of a new vehicle when the vehicle is sold or leased for a fixed period of more than thirty-one (31) days for the first time.

The Manufacturer’s Certificate of Origin (MCO or MSO) must be assigned by the manufacturer to the dealer, and properly reassigned by the dealer to the purchaser of the vehicle.

The MCO or MSO is a secure document, which means there are security features contained on it that prevent erasing, altering or unauthorized reproduction.

Security features may include:

- **Intaglio printing** - a printing process where an engraved plate meets the paper under extremely high pressure forcing the paper into the incisions below the surface of the plate.
- **High-resolution printing** — a printing process that achieves excellent art clarity and detail quality approaching that of the intaglio process.
- **Security paper** — paper containing a security watermark and/or a security thread and has been chemically treated to detect chemical alterations.
- **Erasure-sensitive background inks** — a process whereby the text is printed in a dark color ink over a fine line erasure-sensitive prismatic ink tint.

**Manufacturer’s Certificate of Origin (Front)**

The MCO contains the following:

1. **Date** — The date the MCO was completed by the manufacturer.
2. **Description of Vehicle** — Must be completed by the manufacturer.
3. **Dealer or Distributor** — The name of the dealer or distributor the vehicle was initially delivered to.
4. **Issuing Manufacturer’s Information** — The name and address of the manufacturer and the original signature of the manufacturer’s authorized representative.
Manufacturer's Certificate of Origin
(Back)

1. Name and Address: The full legal name and address of the purchaser.
2. Odometer Reading: The current odometer reading for the vehicle.
3. Name of Dealership: The name of the dealer as shown on the front of the MCO.
4. Signature: The signature of the authorized dealer representative.
5. Notarization: Not required to be completed in Nevada.
6. Odometer Disclosure: Required to be completed for a retail sale. A separate federal odometer disclosure statement may be provided in lieu of completing this section.
7. Lienholder to be recorded: This section must be completed.
   - If the new Certificate of Title is to reflect a security interest in the vehicle the lienholder's name, address and Nevada Electronic Lien Title (ELT) number must be recorded.
   - Except for persons who are not normally engaged in the business or practice of financing vehicles, all lienholders shall use the electronic lien system to process all notifications and releases of security interests through electronic batch file transfers.
   - If there is no lienholder, “None” must be recorded in this section.

Note: A Manufacturer’s Certificate of Origin is invalid if it has been altered in any manner. The reassignments can only be completed between dealers. If the vehicle is sold to an individual, the ownership paper work must be submitted to the Department.
Nevada Certificate of Title
Nevada Revised Statute (NRS) 482.285 and NRS 482.400

There are currently several valid styles of Nevada Certificates of Title (Form VP-2 and RD-2) in circulation. For the purpose of this guide, only the three (3) most recent styles will be addressed (Revision 1/2016, 8/2010 and 1/2006).

The registered owner or seller must sign the Certificate of Title exactly as the name appears on the face of the Certificate of Title:

- If there is more than one (1) registered owner or seller, joined by “and,” the signature of each registered owner or seller is required.
- If there is more than one (1) registered owner or seller, joined by “and/or” or “or,” only one (1) of the owner or seller’s signature is required.
- If there is more than one (1) registered owner or seller, and not joined by “and” or “and/or” or “or” the signature of each registered owner or seller is required. The Department considers no name indicator as “and” in these cases.
- If the owner or seller information is in the name of a business, the name of the business must appear along with the signature of an authorized business representative.

Buyer information must be completed indicating exactly how the new Certificate of Title is to read, and it must show the buyer’s full legal name.

Lienholder Section: This section must be completed.

- If the new Certificate of Title is to reflect a security interest in the vehicle the lienholder’s name, address and Nevada Electronic Lien Title (ELT) number must be recorded.
- Except for persons who are not normally engaged in the business or practice of financing vehicles, all lienholders shall use the electronic lien system to process all notifications and releases of security interests through electronic batch file transfers.
- If there is no lienholder, “None” must be recorded in this section.

Duplicate Certificate of Title
Application for Duplicate
Nevada Certificate of Title
Form VP-12

If a Nevada Certificate of Title has been lost, stolen or mutilated, a duplicate Nevada Certificate of Title may be obtained by completing the Application for Duplicate Nevada Certificate of Title.

The Application for Duplicate Certificate of Title (Form VP-12) must be completed in full and submitted by the owner of record on file with the Department. The application must be signed and witnessed by a notary public or an authorized Nevada Department of Motor Vehicles representative.

The “Registered Owner(s)” and “Lienholder” areas must be completed exactly as shown on the current title record. If the original Certificate of Title was issued with “and” between the registered owner’s names, all owners must sign the application. If the original Certificate of Title was issued without an indicator such as “and” or “or” then all owners must sign the application. The Department considers the lack of a name indicator as “and” in these cases.

If a lienholder is applying for the duplicate Certificate of Title, the lienholder must complete the application.

The “Requested By” area must be completed if the duplicate Certificate of Title is to be mailed to a different address or person. A notarized letter of authorization is also needed unless the requestor is a licensed Nevada Dealer.

If the lien has been satisfied, for a printed title, a notarized lien release signed by the lienholder is required. An Electronic Lien Title (ELT) lien is released electronically by the lienholder and a title without the lienholder is printed and sent to the registered owner.

A duplicate title cannot be requested for an Electronic Lien Title (ELT). The lienholder is responsible for electronically requesting a printed title.

Odometer Mileage Disclosure

**NRS 482.245, NRS 484D.300 to 484D.345**

Federal and state laws and regulations require an odometer disclosure be completed upon transfer of ownership for vehicles nine years old or newer.

The odometer disclosure must be made in writing on the secure title document or on the secure reassignment document if one is used to reassign a title.

If the vehicle has never been titled, i.e., a new vehicle or one coming into the country for the first time, the disclosure can be made on a separate document. This document does not need to be secure, however, the same person (person includes company or corporation) cannot sign the disclosure as both the buyer and seller.

The seller and purchaser must jointly attest to the odometer reading shown on the vehicle’s odometer apparatus at the time of transfer of ownership of the vehicle.

If the odometer reading is not the actual mileage of the vehicle, the appropriate designation must be made on the odometer disclosure.

If a vehicle does not have an odometer, the disclosure must include a statement to that effect, and the true mileage of the vehicle is not known.

An odometer disclosure must be completed when an out-of-state vehicle is titled for the first time in Nevada, even if there is no ownership change.

An odometer disclosure must include:

- The printed name and signature of each buyer and seller, the same person (person includes company or corporation) cannot sign the disclosure as both the buyer and seller.

- The current address of each buyer and seller.

- A complete vehicle description (make, model, year, body type and VIN).

- The current odometer reading, excluding tenths.

- The date of the transfer of ownership.

A Secure Power of Attorney must be used to disclose the mileage of the vehicle when a Certificate of Title or ownership is physically held by a lienholder or when a duplicate Certificate of Title or ownership is applied for. Refer to the Secure Power of Attorney section for additional information.

The original copy of the odometer disclosure statement must be submitted to the Department with the title documents.

**Leased Vehicles**

Before a transfer of ownership is documented, each lessor of a leased motor vehicle shall notify the lessee in writing the lessee is required to provide a written odometer disclosure to the lessor regarding the mileage. The disclosure may be made on either the Certificate of Title, or if the reassignment area is filled, using the Dealer Reassignment of Title form. This disclosure must contain a reference to the federal law and must state that failure to complete or providing false information may result in fines and/or imprisonment. Reference may also be made to applicable state law.
Both the lessee and lessor must sign the disclosure.

**Repossessed Vehicles**

The odometer reading for vehicles that have been repossessed must be reported by the legal owner of the vehicle (lienholder).

**Unrecovered Stolen Vehicles**

Vehicles that are transferred to an insurance company when a payoff is made on an unrecovered stolen vehicle are exempt from the odometer disclosure requirements due to the unavailability of the vehicle.

**Miles versus Kilometers**

To accurately reflect the true reading of the odometer apparatus, the documents (title, reassignment, etc.) should indicate whether the odometer records the distance traveled in miles or kilometers.

When the title is processed, the kilometers will be converted to miles. The kilometers are multiplied by 0.6214 then round to the nearest whole number, the answer is used as the miles.

**Secure Power of Attorney**

A Secure Power of Attorney (VP-221) is used when a Certificate of Title is physically held by a lienholder, or when a Certificate of Title has been lost. The owner of a vehicle may give power of attorney to a buyer for the purpose of mileage disclosure. The authorization to do so must be conveyed by a secure power of attorney.

The Secure Power of Attorney form may be purchased from any Occupational Business and Licensing section of the Department of Motor Vehicles. This is a $0.50 fee for each form.

Erasures, corrections or the use of correction fluid to correct any information other than an address voids the form. If a correction to an address is made, an Erasure Affidavit (Form VP-19) must be completed and attached to the Secure Power of Attorney. The Erasure Affidavit cannot be used for errors made to the Odometer statement.

The buyer and the seller must retain a copy of the statement.

Salvage Title
Form VP-2S and RD2S

Salvage Title (NRS 487.810) means a title for a vehicle, which contains a brief description of the vehicle, including, insofar as data may exist with respect to the vehicle, the make, type, serial number and motor number, or any other number of the vehicle.

The Department will issue a Salvage Title for a vehicle upon application by the:

- The owner of the vehicle;
- The person to whom the vehicle is titled;
- An insurance company that acquires the vehicle as a salvage vehicle; or
- A lienholder who acquires title to the vehicle.

If the Certificate of Title/Ownership is held by a lienholder, the registered owner must notify the lienholder within ten (10) days that the vehicle has become a salvage vehicle. The lienholder must, within thirty (30) days of receiving the notice, forward the title and the Application for Salvage Title or Non-Repairable Vehicle Certificate (Form VP-213) to the Department.

An Application for Salvage Title or Non-Repairable Vehicle Certificate (Form VP-213) and all accompanying documents will be returned to the applicant if they are not correctly completed in full.

An owner of a salvage vehicle may only sell the salvage vehicle to a salvage pool, automobile auction, rebuilder, automobile wrecker, or a new or used automobile dealer.

The Authorization for Vehicle Restoration must be obtained prior to the vehicle being rebuilt for vehicles five (5) years old or newer.

The vehicle must be repaired or restored to operation, complete a VP-64 Certificate of Inspection / Affidavit of Vehicle Construction and have a branded title before the vehicle may be sold to a person other than the businesses listed.
Out-Of-State Salvage Certificates/Titles

Salvage certificates issued by other states must be properly endorsed and must indicate and document a complete “chain of ownership” for the vehicle.

Contact the Department prior to accepting documents for a salvaged or junked vehicle, as laws from other states vary, and there may be instances where the Department must determine whether the documents can be accepted and whether a Salvage Title can be issued.

Some states will issue a salvage title for vehicles that have been issued a junk or non-repairable designation in another state. Nevada will not issue a salvage title for any vehicle that has or has had a status, from any state, denoting the vehicle cannot or should not be repaired for use on public highways or roads.

Retention of Salvage Vehicles

An insured party (registered owner) may elect to retain a vehicle that has been declared a total loss insurance settlement. The insurance company or authorized agent must obtain the signature of the registered owner on the Application for Salvage Title or Non-Repairable Vehicle Certificate and the current vehicle title.

The insurance company must apply for a Salvage Title, by submitting the Application for Salvage Title, current title and fees, on behalf of the person who is retaining the salvage vehicle. The vehicle may not be sold or transferred until the registered owner has received a Salvage Title.

Authorization for Vehicle Restoration

NRS 487.480
Form VP-209

As required by NRS 487.480, the Department will not issue a Certificate of Registration or title for vehicles that have been issued a Salvage Title (if the vehicle is five (5) years old or newer) unless the Department has authorized the restoration of the vehicle. Form VP-209, Authorization for Vehicle Restoration, must be completed.

The authorization to restore the vehicle must be obtained prior to the vehicle being rebuilt. Only an authorized Nevada Department of Motor Vehicles Representative may complete the form.

In order to register and/or title the vehicle, the Authorization for Vehicle Restoration, Salvage Title and Certificate of Inspection/Affidavit of Vehicle Construction for Rebuilt or Specially Constructed Vehicles (VP-64 or VP-64M) must be provided. Additional documents may be required as deemed necessary.

Section 3  COMPLETING OWNERSHIP DOCUMENTS
Dealer’s Report of Sale

Dealer, Rebuilder, or Lessor’s Report of Sale or Lease

Nevada Revised Statute (NRS) 482.423 - 482.424

As of July 1, 2014 all Dealer, Rebuilder or Lessor’s Report of Sale or Lease data must be transmitted electronically to the Department. This is referenced as an Electronic Dealers Report of Sale (EDRS).

When a Dealer, Rebuilder or Lessor’s Report of Sale (DRS) is required, dealers will utilize the Electronic Dealer Report of Sale Program (EDRS), a web-based system, using the Motor Vehicle Industry Portal (MVIP) to transmit vehicle and owner information to the DMV. The DMV will hold the data in a temporary table for sixty (60) calendar days from the date of sale. The dealer will not be able to query or access the DMV databases; however, limited changes to the vehicle and owner information will be possible during the sixty (60) days the data is held in the temporary table.

Through EDRS, customers who possess a Nevada Driver License, Nevada Identification Card, Driver Authorization Card or businesses with a Federal Employer Identification Number (FEIN) may have the option to register their vehicle via the DMV Online Registration. Customers using the web may choose to receive new license plates or transfer their current, valid license plates to their new vehicle and use applicable credits.

DMV Web Connectivity

The most compatible web browser is Internet Explorer. While using other web browsers some functionality may not function. To allow the EDRS PDF document to display, you must enable pop-ups on your PC.

When a DRS is required

A Dealer, Rebuilder or Lessor’s Report of Sale or Lease (DRS) is the primary document used to register a vehicle sold or leased to a Nevada resident by or through a licensed Nevada dealer.

A DRS must also be issued when another dealer purchases a new or used vehicle for personal or business use that the dealership is not authorized to resell. In addition to issuing a DRS, the selling dealer must collect and remit sales tax.

A Nevada dealer may not issue a DRS to:

- Themselves.
- Other dealerships – for wholesale vehicles to be resold by that dealership.
- An out-of-state resident purchasing a vehicle in Nevada.
- An out-of-state dealership when handling a sale as a courtesy delivery.
- Buyers of off-road vehicles. These vehicle sales are handled by the Off- Highway Vehicle section of the DMV.
- For a Recreational Park Trailer. (Recreational Park vehicles are not registered with the Department.)

A DRS is issued the same date that all documents necessary to complete the sale or lease of a vehicle are executed. (NRS 482.423 and NRS 482.424). The date of transaction is defined as the date of sale or lease and cannot be changed.
For sales to individuals, the name of the purchaser that appears on the DRS must be the full legal name as it appears on the purchaser’s driver’s license, driver authorization card, or state-issued identification card.

A dealer must furnish a copy of the DRS to the buyer not less than ten (10) calendar days before the expiration of the temporary dealer placard (NRS 482.423 and NRS 482.424). The temporary dealer placard is given to the buyer of a vehicle upon entering into a contract of sale for a vehicle. The temporary dealer placard is valid for thirty (30) calendar days after the date the contract of sale was signed.

The DRS must be completed in full, and all information must match the information contained on the Manufacturer’s Certificate of Origin, or outstanding title.

**Submitting a DRS**

After the vehicle is sold, the dealer must submit the required documents to the Department’s Carson City Title office to complete the transfer of ownership.

- If the vehicle is new, the documents must be submitted within twenty (20) calendar days of the DRS transmission date.
- If the vehicle is used, the documents must be submitted within thirty (30) calendar days of the DRS transmission date.
- If a correction was made to the DRS, include a copy of the updated DRS with an original signature.
- The DRS must be properly completed. Incomplete or incorrect information will result in the return of documents and delays for all parties involved.
- Information on the DRS must match the information on the Manufacturer’s Certificate of Origin or the applicable Certificate of Title.
- Title fees must be submitted with the DRS.

**DRS Copy Distribution**

The DRS consists of three (3) copies distributed as follows:

- One signed copy must be attached to all original, required title documents and forwarded to the Title Section in Carson City. If an update was made to the DRS, include a copy of the updated DRS with an original signature.
  
  Department of Motor Vehicles  
  Attn: Titles  
  555 Wright Way  
  Carson City, NV 89711

- One signed copy is given to the purchaser and is used to register the vehicle. The vehicle must be registered before the expiration date on the Temporary Dealer Placard. Late fees will be assessed if the vehicle is not registered within the thirty (30) calendar day period. If an update was made to the DRS, include a copy of the updated DRS with an original signature.

- Customers must submit their insurance information at the time they are registering their vehicle. Nevada law requires registered owners to maintain insurance coverage on registered vehicles from an insurance company licensed with the Department of Insurance in the State of Nevada to avoid a minimum $250.00 fine.
The dealer’s copy is the dealer’s record of sale and must be retained for seven (7) years from the date of transaction or three (3) years after the dealership has gone out of business. If a correction was made to the DRS, include a copy of the updated DRS with an original signature.

DRS Extensions

Submittals for an extension of time on a DRS may be requested by the dealer (refer to Section X of this guide for additional information).

Instructions for Completing the Dealer or Rebuilder Or Lessor’s Report of Sale

Please reference the EDRS manual located at the link below for instructions to complete, update and print a DRS.

Lease Buyout

Lease Buyout means a person or business leasing a vehicle that terminates the lease by purchasing the vehicle. This constitutes a sale and is processed as a new transaction. A Dealer’s Report of Sale (DRS) must be completed when a lease is terminated as a result of purchase of a vehicle. If the owner information remains the same as it was during the lease period, the dealer shall:

- Attach the completed and properly released Certificate of Title and the $28.25 title fee.
- Submit two copies of the DRS and the supporting documentation to the Department,
- Mark the appropriate box to indicate sales tax was collected. Nevada dealers are required to collect sales tax on all retail sales in Nevada, including lease terminations and lease buy-outs.
- Include $5.00 for the new certificate of registration.

The Department’s Carson City office will issue a new registration for the vehicle removing the lease information, and mail it to the registered owner. If there are changes in the registered owner information, but there is not a complete transfer of ownership or lease, the dealer shall:

- Print “Lease Termination—Correction” across the top of the DRS; and
- Give a signed copy of the DRS that shows the modified information to the customer.
- Mark the appropriate box to indicate sales tax was collected. Nevada dealers are required to collect sales tax on all retail sales in Nevada, including lease terminations and lease buy-outs.

The customer retains the original set of license plates.

In all cases, the $20.00 title and $8.25 title-processing fee must be submitted with the title documents when they are sent to the Department’s Carson City office.

Note: Please see Section II for Odometer Disclosure Information pertaining to leased
vehicles.

Selling Governmental Agency Vehicles
NRS 372.040, 372.055, and 372.325

Dealer licensed to auction:
One or more of your auctioneers may be hired or contracted to assist a governmental agency with the sale or liquidation of one or more of their vehicles.

DO NOT:

- Sign onto the title.
- Issue a temporary dealer placard.
- Issue a Dealers Report of Sale.
- Provide a passing emission test.

IMPORTANT: Nevada sales tax exemptions apply to Nevada Government and U.S. Government vehicles only. Government vehicles (state owned) from other states that are brought into Nevada for retail sale, when sold by a licensed dealer or licensed dealer auction, are subject to the collection of sales tax.

Note: Sales tax exemptions only apply to the first sale of U.S. Government owned vehicles being sold, no matter where they are sold or purchased.

Government vehicles (owned by another state) that are purchased in another state and not registered in that state, then brought to Nevada to be registered, are subject to Nevada state sales tax.

Dealer licensed to auction:
One or more of your auctioneers are hired or contracted to assist a governmental agency with the sale or liquidation of one or more of their vehicles.

If the fee is a commission, fee, or other form of compensation derived or associated with the sale of each vehicle or group of vehicles: or the fee is for the sale of each vehicle from each buyer,

YOU MUST:

Issue a temporary dealer placard, NRS 482.423 & 482.424.
Provide a passing emission test, NRS 445B.800.

On the first public sale of governmental vehicles, you still DO NOT sign on to the title unless you are taking “ownership” of the vehicle prior to selling it to the public or another dealer. See Section II page #10 and #14 for instructions on how to complete and process the vehicle title.

Important: Pursuant to NAC 445B.575: If a vehicle is required by state or federal law to
be equipped with an emission device and that device is missing or inoperable, the vehicle cannot be displayed or offered for sale to the public.

However, it may be sold to a Nevada licensed vehicle dealer or auto wrecker. The purchasing dealer should be provided with a written disclosure from the selling dealer advising the purchasing dealer the vehicle is missing the required emission device or that the device is inoperable.

The vehicle may be sold to a Nevada licensed auto wrecker without that disclosure.

Dealer Reassignment of Title

Dealer Reassignment of Title (form VP-190) is a form provided by the Department pursuant to NRS 482.400 for use by a dealer for the transfer of ownership of a vehicle.

If a Certificate of Title is not available at the time of transfer of ownership, and it is not in the possession of a lienholder and it has not been lost or stolen, a dealer may use a Dealer Reassignment of Title form to transfer ownership of a vehicle.

The Dealer Reassignment of Title may also be used if the spaces on the reverse side of the Certificate of Title have been filled in or struck through.

The first assignment area on the Certificate of Title must always be completed.

If a dealer uses a Dealer Reassignment of Title form to transfer the ownership of a vehicle, the dealer shall, before submitting documentation concerning the transaction to the Department:

- Write the control number of the Dealer Reassignment of Title form in the upper right corner of the reverse side of the Certificate of Title for the vehicle;
- Attach the Dealer Reassignment of Title form to the Certificate of Title; and
- Strike through any spaces on the reverse side of the Certificate of Title that remain unfilled.

If a reassignment of title form is used, and the buyer is not a dealer, the buyer must be provided with an opportunity to examine:

- The Certificate of Title or a photocopy of the Certificate of Title; and
- Any power of attorney for the purpose of mileage disclosure that was given to the dealer in connection with his acquisition of the vehicle.
Lien Release / Satisfaction of Lien

Lien Release means a written release from a person, business or financial institution on record as having a security interest in a vehicle. The lien release must include a complete vehicle description.

An Electronic Lien Title (ELT) must be released by the lienholder electronically. The electronic lien release will create a new title without the lien listed (clear title). The title will be mailed to the party requested by the lienholder.

A lien release or satisfaction of lien enables a lienholder to release the security interest in a vehicle. It may be used with the Certificate of Title or with an application for a duplicate Certificate of Title for a printed title.

The lien release must include:

1. A complete description of the vehicle, including the vehicle identification number, year, make, and model.

2. The registered owner’s full legal name.
3. The registered owner’s address.
4. The printed name of the lienholder.
5. The address of the lienholder.
6. The phone number of the lienholder.
7. The printed name of the lienholder representative.
8. The lienholder representative’s title if the lienholder is a business.
9. The signature of an authorized representative.
10. A Lien release must be signed in the presence of a Notary Public or authorized Nevada Department of Motor Vehicles representative. If witnessed by a Notary Public, the stamp and signature of the notary public must appear on the affidavit. If witnessed by an authorized Department representative, the name and validation stamp or employee identification number, as applicable, must appear on the affidavit.

**Note:** A Lien Release (Form VP-186) is available from the Department. However, other forms will be accepted provided they contain the information specified above.
LIEN RELEASE

This lien release can only be used to release a lien on a printed title. If the title is an electronic record, the lienholder must release their lien electronically. After electronic receipt of lien release the DMV will create a new title without the lienholder listed and mail the clear title to the registered owner.

A title fee, the title, and the application must be submitted to the Department Motor Vehicles to make this change. A new Nevada title will be issued with the beneficiary’s name and the “Transfer on Death” designation.

A beneficiary cannot be added to the title when there is a lienholder or ownership is designated as “Tenants in Common.” The beneficiary does not have interest or control of the vehicle. If a lienholder is added to the title later, the beneficiary will be removed from the title.

To transfer the ownership to the beneficiary, the beneficiary must submit the title (if available), title fee, and certified death certificate of the vehicle’s legal owner(s). If more than one owner is on the title, the beneficiary cannot become the vehicle owner until all owners are deceased.
Section 4  **Non-US Vehicles**

Foreign, Canadian and Gray Market Vehicles

U.S. Military Registration and Titles

Foreign and Gray Market Vehicles
Foreign and Gray Market Vehicles

A foreign or gray market vehicle is a vehicle manufactured for sale in a country other than the United States that may not meet U.S. safety and/or environmental standards. These vehicles are not imported to the United States through the manufacturer’s U.S. distribution system. Once in the United States, these vehicles must be brought into compliance, exported back out, or destroyed.

- All of the following documents are required to register and title a gray market vehicle:
  - The foreign Manufacturer’s Certificate of Origin, Manufacturer’s Statement of Origin or outstanding Certificate of Title; or
  - A statement signed by the manufacturer indicating an MSO/MCO was never issued; or
  - A statement from the manufacturer indicating to whom they assigned their interest in the vehicle; and
  - Bills of sale to establish a complete chain of ownership

- A completed Vehicle Inspection Certificate (Form VP-15)
- U.S. Department of Transportation Form HS-7
- U.S. Environmental Protection Agency Form 3520-21
- Odometer Disclosure Statement for vehicles 9 years old or newer if not on the MSO/MCO or title
- Statement of Facts (Form VP-22) if there is no Manufacturer’s Certificate/Statement of Origin or outstanding Certificate of Title

The Nevada Certificate of Title will be branded “Non-US Vehicle” to provide notice to future owners that the vehicle was a foreign or gray market vehicle.

For more information, you may reference the National Automobile Dealers Association (N.A.D.A.) Title and Registration Text Book, PO Box 7800, Costa Mesa, CA 92628, phone number 800-966-6232.

Vehicles that are sold in the United States and designated for importation out of the United States cannot be titled in Nevada.

Miles versus Kilometers

To accurately reflect the true reading of the odometer apparatus, the documents (title, reassignment, etc.) should indicate whether the odometer records the distance traveled in miles or kilometers.

When the title is processed, the kilometers will be converted to miles. The kilometers are multiplied by 0.6214 then rounded to the nearest whole number; the result is used as the miles.
Canadian Vehicles

A Canadian vehicle is a vehicle that has been previously registered or titled in Canada, or ownership for the vehicle has been filed in Canada.

Vehicles not previously determined eligible for importation must go through a petition process that takes between ninety (90) and one hundred twenty (120) days.
    - Non-Conforming Vehicle with a bond release letter
      DOT form HS-7, Declaration of Conformity.
      CBP form 7501 Entry Summary.

However, you are not entitled to tax relief under the Service Member’s Civil Relief Act of 2003. You may be entitled to a Veterans Exemption. Contact your Nevada County Assessor.

If your registration renewal requires an emission inspection and you cannot have it completed in Nevada, you must have a smog check completed if you are currently residing in an area that requires emission inspections or submit an affidavit if testing is not required in your location. You may wish to consider renewing early when you are in Nevada.

The DMV will waive registration late fees for active duty military members assigned to combat or combat support positions. Use the Active Duty Military Combat Affidavit (VP 258) when you renew your registration. This form must be submitted at the time of renewal. You may renew by mail if the form is notarized or you may sign it and renew in person at a DMV office.

If you wish to obtain an original registration or transfer an existing Nevada registration...
and plates to another vehicle, please email the Vehicle Identification Number and other specifics such as where and how the vehicle was purchased, sales price and any sales taxes paid. We will return an estimate of fees and instructions on how to complete the registration.
Section 5  Registration Information
General Registration Information

Registration requirements include Nevada liability insurance, a passing emission control certificate when the vehicle is registered in Clark and Washoe Counties, current odometer reading, odometer disclosure statements when applicable and payment of sales tax or proof that sales tax in Nevada has been paid.

Nevada law requires registered owners to maintain continuous Nevada liability insurance coverage on registered vehicles, from a licensed Nevada insurance carrier to avoid reinstatement fees and fines. Mopeds are exempt from insurance requirements.

**Note:** An insurance company must be licensed through the State of Nevada, Department of Insurance and approved by the Department of Motor Vehicles to sell vehicle insurance policies in Nevada.

- Minimum liability insurance amount is:
  - $25,000 for bodily injury to or death of one person in any one accident;
  - Subject to the limit for one person, in the amount of $50,000 for bodily injury to or death of two or more persons in any one accident; and
  - $20,000 for injury to or destruction of property of others in any one accident.

Vehicle Registration Fees

Nevada Revised Statutes (NRS) 482.205 requires that every owner of a vehicle intended to be operated on any Nevada highway apply to the Department or a registered dealer to obtain a valid registration before the vehicle can be operated on Nevada highways. Nevada requires all vehicles to be registered for twelve (12) consecutive months (NRS 482.206).

Exceptions:

- Recreational and utility trailers may be registered for three years at a time.
- The Motor Carrier Division offers a permanent registration and license plate for full and semi-trailers.
- Mopeds are a one-time registration without renewal. A moped is registered until the date which the owner transfers the ownership or cancels the registration.

All vehicles with a declared gross weight in excess of 26,000 pounds must be registered with the Motor Carrier Division. The Motor Carrier Division may prorate new vehicle registrations only for 100 percent (100%) Nevada based vehicles for the balance of the year (if the carrier can prove they did not run prior to registering).

Owners of fleet vehicles (ten (10) or more vehicles) may be registered on a calendar year basis, with the registrations expiring on December 31.

Governmental Services Taxes

Governmental Services Taxes, as required by NRS 371.050, are also due and payable at the time of a vehicle registration. These taxes are based on 35 percent (35%) of the Manufacturer’s Suggested Retail Price (MSRP) of the vehicle, excluding options and extras, when the vehicle was first offered for sale.

Buses, trucks, truck tractors or vehicle combinations having a declared gross weight of 10,000 pounds or more, and trailers and semi-trailers having an unladen weight of 4,000 pounds or more, may be assessed at 85 percent (85%) of the original purchase price, in lieu of the MSRP.

The original value of the vehicle may be based on $0.50 per pound, if the Department is unable to determine the original MSRP in Nevada, or the original retail price.

Governmental Services Taxes are based on $0.04 for each $1.00 of valuation of the vehicle as determined by the Department (NRS 371.040). Vehicles are depreciated for the purpose of the governmental services taxes annually until the vehicle is nine (9) years old. Buses, trucks or truck tractors having a declared gross weight of 10,000 pounds or more and each trailer or semi-trailer having an unladen weight of 4,000 pounds or more are depreciated by the Department annually until they are ten (10) years old (NRS 371.060).

**Supplemental Governmental Services Taxes**

NRS 371.045 authorizes boards of county commissioners to impose additional governmental services taxes of not more than $0.01 per $1.00 of valuation of the vehicle.

Supplemental Governmental Services Taxes are rounded to the nearest dollar and will be calculated at the time of registration as applicable to the county in which the vehicle is based.

As required by NRS 482.268, the Department also collects a License Plate Production Fee. The fee amount is set by regulation in NAC 482.295.

Section 9  Emission Control
Nevada Motor Vehicle Emission Control Program

Summary

A decentralized, test-and-repair, basic I/M (Inspection and Maintenance) program is operating in Reno (Washoe County). A decentralized, test-and-repair, low enhanced I/M program is operating in Las Vegas (Clark County).

Model year 1968 and newer vehicles that are over two years old are inspected. All gasoline-powered vehicles (light and heavy duty), and all diesel powered vehicles with a Manufacturer’s Gross Vehicle Weight Rating of 10,000 pounds or less that meet this model year criteria are inspected for emissions annually. Vehicle owners that are registering or re-registering their vehicle are required to have their vehicle emission inspected as part of the process (program is registration enforced). The DMV registration database obtains the emission information for vehicles that are involved in the registration process from the vehicle information database (VID). Only gasoline emission analyzers are networked to a vehicle information database (VID) for emissions at this time.

Hybrid Vehicles (Gasoline/Electric), effective October 1, 2007 are exempt from emission testing:

- Based on the model year of the vehicle.
- Exempt for five model years. Emission testing will resume in the 6th year.

  Note: If vehicle is a 2007 and purchased new in 2008 there is no extension allowed. Emission will be required in the sixth model year, upon renewal in 2013.

Vehicle Ratings

For Gasoline Powered Vehicles

Light-Duty Vehicles Defined

- Trucks with a manufacturer’s gross vehicle weight rating less than 8,500 pounds
- A passenger motor vehicle that is designed to transport 15 or fewer people
- Van Conversions

Heavy-Duty Vehicles Defined

- Trucks with a manufacturer’s gross vehicle weight rating of 8,500 pounds or more
- A passenger motor vehicle designed to transport 16 or more people
- Motor home, mini motor home or camper mounted on a chassis
Test Procedure
For Gasoline Powered Vehicles
1968 thru 1995 Light Duty Vehicles and 1968 and newer Heavy-Duty Vehicles

- Two-speed emission inspection, measuring for carbon monoxide and hydrocarbons.
- Visual inspection for a properly installed gas cap on all fuel tanks.
- Visual inspection for exhaust smoke and crankcase blowby.
- Visual inspection for tampering of the air injection system, exhaust gas recirculation valve, catalytic converter and fuel inlet restrictor.

Catalytic converters did not become mandatory in American Automobile Industry until 1975. Vehicle model years 1968 to 1974 are not required to have catalytic converters.

1996 and Newer Light Duty Vehicles

Inspection of “Certified on-board Diagnostics” (OBDII) system on 1996 and newer light-duty vehicles.

Waiver Requirements
For Gasoline Powered Vehicles

Clark County:

- $450.00 in repairs related to exhaust gas failures only. A waiver will not be granted for an emission failure due to tampering of emission devices, visible smoke or blowby. Repairs must be completed at an Authorized Station licensed to perform emission related repairs (designated a 2G station) to be eligible for an emission waiver.

- Self-repair provisions are not authorized in Clark County.

Washoe County:

- Self-Repair: $200.00 spent on parts related to the exhaust gas failure, other than a catalytic converter, fuel inlet restrictor or air injection system. No waiver for an
emission failure due to tampering of emission devices, visible smoke or blowby.

- Shop Repair: $200.00 related to exhaust gas failures only. No waiver will be granted for an emission failure due to tampering of emission devices, visible smoke or blow-by. Repairs must be completed at an Authorized Station licensed to perform emission related repairs. Facilities also noted as 2G.

- In addition to the requirements mentioned, the customer must have the following items present when applying for a waiver:
  - First failed emissions test before repairs were performed on the vehicle.
  - Receipts for parts and labor repairs dated after the first failed test.
  - Second failed emission test after repairs were performed.
  - Vehicle must be present for inspection to verify repairs were performed.

  **Note:** Vehicles Inspection Reports are valid for ninety (90) days from the date of the test.

**Diesel Vehicles Requiring and Emission Inspection**

The following Diesel Vehicles are required to have an emission inspection:

- All passenger vehicles regardless of Manufacturer's Gross Vehicle Weight Rating
- All light Duty Motor Vehicles
- All heavy-duty motor vehicles having a manufacturer's gross vehicle weight rating not exceeding 10,000 pounds

The emission inspection requirement is irrelevant to the weight that the registered owner declares, and only the Manufacturer's Gross Vehicle Weight Rating is the determining factor. These vehicles are tested for opacity (density of smoke existing in the exhaust). Pursuant to [NAC 445B.589](#), all emission control devices that are listed on manufacturer's emission control label for 1981 and newer vehicles are visually inspected. All vehicles that require testing are inspected for a proper fuel cap on all fuel tanks and are required to be in compliance preceding registration or renewal. The diesel vehicles are tested under a load on a dynamometer. The maximum allowable opacity reading in Washoe County is 40 percent (40%) and in Clark County, the maximum is 30 percent (30%).

**Diesel Vehicles Not Requiring an Emission Inspection**

The following Diesel Vehicles are not required to have an emission inspection for registration: Heavy Duty motor vehicles with a Manufacturer’s Gross Vehicle Weight Rating of 10,001 pounds or more and, vehicles that carry more than fifteen (15) passengers with a Manufacturer's Gross Vehicle Weight Rating of 10,001 lbs. or more. These vehicles are tested at random at roadside inspection stations and are not required to have an emission test for registration purposes. Passenger vehicles powered by diesel are not included in this category with the exception of full time all-
wheel drive vehicles such as Hummers. These types of vehicles can receive an emission exemption from the Departments Emission Control Lab’s.

**Smoke Hotline**

Nevada has a Smoking Vehicle Hotline (686-SMOG (7664) in Reno, and 642-SMOG (7664) in Las Vegas) so that anyone may report a vehicle that is emitting excessive smoke from its exhaust. The information is collected and researched by the Compliance Enforcement Division of the Department of Motor Vehicles. The registered owner is sent a letter notifying them that their vehicle was reported as a smoking vehicle. The letter requests they repair the vehicle if it in fact emits visible smoke.

If a representative of the Department or a Law Enforcement Officer witnesses a vehicle smoking, a Smoking Vehicle Observation Report form is completed. The Department will then require a response from the registered owner of the smoking vehicle.

For more information on the Smoking Vehicle Program, call 1-877-368-7828 or the web at [https://dmvnv.com/emission.htm](https://dmvnv.com/emission.htm).

**Vehicles for Sale**

It is unlawful for any person (individual or business) to sell, offer for sale, display, operate or leave standing any vehicle that is required by state or federal law to be equipped with pollution devices unless those devices are correctly installed and in operating order.

**Dealer Sales**

Any dealer who sells a used vehicle that will be registered in a Nevada Emission Control Program area must provide a certificate of compliance at the time the Dealer’s Report of Sale is issued.

**Licensee Overview**

Facilities that perform emission inspections are licensed as either an Authorized Inspection Station (1G) or Authorized Station (2G). Authorized Inspection Stations (1G) can test vehicles for emissions but cannot perform emission related repairs. Authorized Stations (2G) can test vehicle for emissions and perform emission related repairs.

Individuals licensed to only perform emission inspections are classified as 1G. Individuals licensed to perform emission inspections and emission related repairs are classified as 2G. There are different levels of training and testing requirements for each level of inspector classifications.

**Fee Schedules**

Fees for inspections are calculated based upon 35 percent (35%) of the average shop labor rate, evaluated within each county during the final quarter of each year. A $6.00
vehicle inspection report fee is charged for each inspection throughout the State of Nevada. Maximum fees for each calendar year are calculated during the last quarter of the calendar year and are based on the annual shop labor rate survey conducted by the Department.

Section 10  OCCUPATIONAL AND BUSINESS LICENSING
Vehicle Industry Licensing
Vehicle Industry Licensing and Regulation

The legislature finds and declares the distribution and sale of motor vehicles in the State of Nevada vitally affects the general economy of the state, the public interest and the public welfare. In the exercise of legislative police power, it is necessary to regulate and license motor vehicle manufacturers, distributors, new and used vehicle dealers, rebuilders, leasing companies, brokers, transporters, salespersons and their representatives doing business in the State of Nevada in order to prevent frauds, impositions and other abuses upon its citizens.

The Department of Motor Vehicles (Department) has been charged with the responsibility of regulating the vehicle industry to ensure the legislative declaration and intent is met.

It is incumbent upon each licensee to know the laws governing the vehicle industry and the business for which the licensee is licensed. This information is intended to assist you in that effort.

Being Contacted by the Department
And Availability for Inspection of Books and Records

As a public agency, the Department serves you and many other customers. The Department may receive complaints against a licensee from the public. The Department’s Compliance Enforcement Division will investigate these complaints in order to protect the public interest and prevent unfair practices.

The law provides for inspection by the Department, of your Dealers Report of Sale (VP240), pertinent records, and vehicle inventory. As a condition of licensing, licensees are required to make their books and records available for inspection during normal business hours. Licensees are required to produce items for inspection within three (3) business days of receiving a request from the Department, at the location specified. While records examination is required, we will make every effort to minimize any detrimental impact to the business.

Business Information

Business License

The licensed business may not allow any person, who is not a licensed principal or salesperson of the business, to operate under the authority of the license. The licensee may not lease the license to another business or person. The license is not an asset of the business and is not transferred to new owners should the business be sold.

An additional location of a dealership is considered a separate and new business and must meet all requirements of a new business, with the following exceptions:

- If the principals on the application for an additional location have submitted fingerprints, it is not necessary to submit additional fingerprints with the application for the second location.
- The bond covering the dealer’s principal place of business will cover the additional location if located in the same county and operated under the same business name. A rider from the bonding company, acknowledging coverage for the additional location is acceptable. For any business located in a different county and/or operated under a different business name, a separate bond will be required.
- If the additional location has the same business name as the principal location, it is not necessary to submit an additional insurance certificate; an amendment to the policy acknowledging coverage for the second location is acceptable.

Upon approval, a business license number will be issued. Supplies are issued by business license number and cannot be transferred between locations.

Change of Business Principal Information

Documentation for change of business information may be submitted at any Occupational and Business Licensing office.

Adding a Business Principal

To add a principal to an existing business, an updated business license application must be submitted, signed by a current principal of the business, checking the change of business principal box and listing all principal’s full legal names in the ownership section.

A Personal History Questionnaire (form OBL 242) completed with one (1) set of fingerprints, Civil Applicant Waiver, and fingerprint processing fee, must be submitted for the new business principal with the business license application.

Updated Personal History Questionnaire (form OBL 242) must be completed by existing principal(s).

Licensee / Registrant Acknowledgement (form OBL 308).

If the business is either an individual or a partnership, a rider to the bond must be submitted adding the new principal’s full legal name.

If the business is LLP, LLC or corporation, new corporate documents reflecting the change of business principals or corporate officers are required.

The Department will conduct a background investigation on the applicant being added to the business and upon determination of eligibility for licensing, update the records of the Department to reflect the new information.
Removing a Business Principal

To remove a principal from the business license, an updated business license application reflecting the change of business principal information must be submitted to the Department along with a letter from the principal being removed stating that the principal is resigning from the business or relinquishing interest in the business and wishes to be removed.

An Updated Personal History Questionnaire (form OBL 242) must be completed by existing principal(s).

Business operations must cease and the Department will change the business record to “Out-of-Business” status. A surviving spouse or surviving child may not continue to operate a business if not listed on the original license.

Change of Business Address

When a licensee changes the location and/or name of any of the established places of business, he cannot conduct business under the new name, or at the new location, until he has been issued a license for the new name and/or location from the Department NRS 482.326.4.

Documentation for change of address may be submitted to any Occupational and Business Licensing office.

Change of Physical Address

When a licensee changes the physical address of the business, an updated business application form must be submitted to the Department documenting the new address information.

Dealers must also submit a Dealer Franchise Certification (form OBL 253) noting the change, if applicable.

Upon approval, the Department will issue a revised business license, salespersons licenses and registration certificates for any business license plates registered in the
name of the business. All licenses will be issued for the remaining portion of the calendar year.

**Change of Mailing Address**

When a licensee changes only the mailing address of the business, an updated business application reflecting the change of mailing address or a letter documenting the new mailing address with this information must be submitted to the Department. No other documentation is needed to change the mailing address only.

**Renewal of Business License**

All business licenses for vehicle dealers, rebuilders, manufacturers, distributors, brokers, salespersons licenses and registration for business license plates expire December 31 of each year. Licenses and registrations issued throughout the year expire on December 31 and pay the same fee; there is no prorating of fees. Licenses issued on or after November 1, are valid through the following year.

Renewals may be processed on the web at [https://dmvnv.com/](https://dmvnv.com/), by mail or in person. The Occupational and Business Licensing Section of the Compliance Enforcement Division processes all renewals. Licensees are urged to submit the renewal forms and fees early to allow for processing time.

Licenses that are renewed after the expiration date are subject to a $25.00 late fee.

A business principal listed on the renewal form must sign the renewal application. The renewal application will be returned if it is not signed by a business principal. A completed Child Support form, (OBL 268), must accompany the renewal application for each principal. If the form is missing for any of the principals, the renewal application and fees will be rejected and returned to the business.

If the Department does not receive the renewal application prior to close of business on December 31, all activity must cease until the license is renewed. Failure to cease business operations until the licensee is renewed may result in administrative fines and/or revocation of the license. If the principal wishes, he may designate an office manager or resident agent, who will have authorization to sign the renewal and any other paperwork on behalf of the business. This authorization must be submitted to an Occupational and Business Licensing office in writing on the “Letter of Authorization” (form OBL 276), and signed by a business principal. This person must submit a completed Personal History Questionnaire (form OBL 242).

Any change made to the business license requires the submission of documentation with the renewal form. See “Change of Business Information” section or contact your local Occupational and Business Licensing office for instructions and/or forms.

Salesperson licenses may be renewed at the time of renewal of the dealer business license. If a licensee does not wish to renew a salesperson’s license, follow the instructions on the renewal notice. A completed Child Support form, (OBL 268), must accompany the renewal application for each salesperson being renewed. If the form is missing for any of the salespersons, the renewal application and fees will be returned to the business.

Business license plates are renewed at the time of renewal of the business license on the renewal form. If a licensee does not wish to renew a license plate, follow the instructions
on the renewal form and return the license plate(s) to the Department. Note on the renewal form if a business license plate is lost or stolen.

The number of dealer license plates that may be issued to a dealer or rebuilder is a number that is limited to the total number of active principals and salespersons licensed to the business, multiplied by 1.5.

Example: Total of ten (10) principals and salespersons

10 x 1.5 plates = 15 dealer license plates

Manufacturers and distributors may obtain business plates. These are limited to a number that does not exceed the number of principals or officers listed on the license.

Enforcement action will be taken against anyone in possession of a Nevada business license plate or registration certificate that has been reported as lost or stolen. If a license plate, which you have reported lost or stolen is found or turned into your business, the license plate and registration must be returned to the Department. The license plates cannot be reactivated.

**Business License Plates**

The Department is authorized to issue special license plates to business licensees. The fee for a business license plate is $12.00, plus a $3.00 per plate production fee and a $0.50 per plate prison industry fee. The business license plate may be renewed for a fee of $12.00.

Business license plates expire on December 31 of the year of issuance. Fees are not prorated.

A Registration Certificate is issued for each license plate and contains the name, address and license number of the business. The registration certificate is issued to the license plate and not for a specific vehicle. This allows a license plate to be moved from one vehicle to another under the control of the business.

**Business License Plate Display**

License plates must be securely attached to the vehicle. License plates may not be displayed loosely in the window or by any other unsecured method.

**Business License Plates Usage**

A vehicle displaying manufacturer, distributor or dealer license plates may be operated for personal use by a corporate officer, head of a department or salesperson of the business who is licensed by the Department.

Additionally, a business license plate may be used by a business representative to carry out normal business activities. This would include display, demonstration, maintenance, sale, or exchange of a vehicle, driving the vehicle to a temporary off-site sale, etc.

Pursuant to **NAC 482.048**, a manufacturer, distributor, dealer or rebuilder shall not authorize use of a business license plate on:

- Vehicles driven by a member of the family of the principal owner, officer, head of a department or salesperson of the business, if the family member is not licensed as a manufacturer, distributor, dealer, rebuilder or salesperson.

A vehicle that is owned and has been leased or rented to any person.

A vehicle operated in the furtherance of the business, i.e., work or service vehicles owned by the manufacturer, distributor, dealer, or rebuilder.

Vehicles that have been sold.

Pursuant to NRS 482.320.2, dealer license plates may not be used on:

- Work or service vehicles owned or controlled by the dealer/rebuilder.
- Vehicles leased by dealers, except vehicles rented or leased to vehicle salespersons in the course of their employment.

The dealer or rebuilder must maintain a written record of each vehicle that is loaned to a customer in the course of business and on which a loan license plate is displayed. The written record must be maintained at the established place of business and must be available for inspection by the Department. NAC 482.042 and 482.0425

**Supplemental Loan License Plates**

Supplemental loan license plates may only be issued to a franchised dealer who is required under the terms of their franchise agreement to provide loan vehicles of the same make to customers whose vehicles are being serviced or repaired.

Supplemental loan license plates must be registered to a specific vehicle and may only be transferred upon completion of a Supplemental Loan License Plates application, (form OBL 309) and payment of associated fees.

The requesting franchise dealer must provide a copy of the provisions of the franchise agreement that conflict with the limitation of forty (40) loan license plates.

A statement on company letterhead indicating the average daily repairs to justify the number of loan license plates requested, must accompany this request. The justification must be based on the number of work or service orders issued by the franchise dealer for vehicles of the same make and line as the vehicles, which are covered by the agreement. NAC 482.040

**Business License Plates Issued by Other States**

It is the policy of the Department to honor the use of business license plates issued by states other than Nevada if the use of such license plates complies with the statutes of the issuing state.

**Going Out Of Business**

When a business licensee goes out of business, the business principal must notify the Department immediately. The licensee must complete an Out of Business Memorandum (OBL 266). This form is documentation that the business voluntarily went out of business and includes the date the business closed.

Supplies issued to the licensee by the Department must be returned at the time the business ceases to operate. Supplies include 15-Day Drive Away Permits, Short-Term Lessor Permits, Dealer Temporary Placard Security Seals and all business license plates and registrations issued to the business. The dealer or rebuilder is responsible for maintaining all copies of DRS and Short-Term Lessor Permits that were issued by the business for a period of three (3) years from the date of issue.
Requests for Extension of Time for Submitting a Report of Sale

Form OBL 275

If a dealer is unable to submit the Dealer’s Report of Sale and title documents to the Department within the statutory time frame, the dealer may request an extension of time. Extension requests must be submitted within the statutory time frame required for submission of a DRS:

- If the vehicle is new, the documents must be submitted within twenty (20) calendar days of the DRS transmission date.
- If the vehicle is used, the documents must be submitted within thirty (30) calendar days of the DRS transmission date.

A request for an extension must be submitted to an Occupational and Business Licensing office on a Report of Sale Extension Request (form OBL 275). The request must explain why the dealer is unable to submit the title documents within the statutory time frame. An
authorized representative of the dealership must sign the form and a photocopy of the DRS must accompany the request.

An extension should be requested only when necessary and will be granted on an exception only basis. Dealers are required, by statute, to send title documentation to the Department within the required time frame and may be subject to an audit, administrative fine or administrative action against their business license for failure to comply.

A notice of approval or denial of the DRS extension will be mailed to the business. If the request is denied, the reason will be marked on the extension form.

Date of Transaction: NRS 482.423, 482.424, 482.4235, 482.4245 defines the actual date of the sale or lease of a new or used vehicle as the day the DRS is executed. This date may not be changed, extended, or altered.

Form OBL 276

To protect your business and prevent unauthorized persons from fraudulently obtaining titles, license plates, controlled forms, licensing supplies or transacting business in your name, written authorization on a Letter of Authorization (form OBL 276), must be filed with the Department identifying any person, other than the licensed principals, acting on behalf of the business and the type of transactions authorized.

If the license has been expired for six (6) months or more, the applicant must submit an updated new salesperson application and pay the original license fee.

Photo identification is required at the time of submittal of an application. Applicants must be at least eighteen (18) years of age.

Upon receipt of the completed application and fees, the Department may issue a sixty (60) day temporary permit, which will allow the salesperson to engage in sales activities for the employer until the background investigation is completed and a permanent license is issued.

The temporary permit, as well as the permanent license, must be displayed at the employer’s business, in a place where it is visible by the public.

If a person ceases to be employed, the employer must notify the Department within ten (10) days of the date of termination and return the license or temporary permit to the Department.

A salesperson may not re-engage in the activities of a salesperson until a Certificate of
Employment (form OBL 236) form is completed by the new employer and is submitted to the Department. A license transfer fee is required.

A salesperson may only be licensed to work at one licensed Nevada dealership.

If a licensed salesperson changes their residential address, the salesperson must submit a written notice of the change to the Department within ten (10) days after the change occurs.
